Oracle of Apollo Temple at Delphi

Ancient Oracle Tours follows the footsteps along the sacred way tread by ancient pilgrims in search of spiritual guidance and healing. We will pay careful attention to the oracular messages and dreams we receive that can lead us to a state of grace and well being. Ancient Oracles Tours includes a few off the beaten track adventures on our itinerary, excursions into the awesome beauty of natural landscape, fellowship and good cheer sharing wonderful food and drink as we travel across the wine dark seas.

There will be scheduled seminars, dream process workshops, and spontaneous discussions on the myths and rituals of the sacred sites and mystery traditions. English speaking official Greek tour guides will accompany our group at Delphi, Eleusis, Crete, and Delos.
